Dr. Colucciello recognized the leadership of the President of APSTA, Cathy Corbo. She has been a promoter for the Nationally Certified Teachers in the district. Currently, the district has seven. Two recently certified teachers are Melissa Hurt and Deb Cronin. Five other nationally certified teachers in the district are Rita Floess, Maggie Fuller, Betsy Tanenhaus and Nigro Cushing. Congratulations to all. The district continues to encourage teachers to seek this certification.

Winners of the Martin Luther King Essay Contest, Rachel Britt-Busler – 1<sup>st</sup> place, A'Montay Giddings-Watson – 2<sup>nd</sup> place and Jefferson Pintado – 3<sup>rd</sup> place were recognized. A review of the process was also presented to the board. The Martin Luther King Celebration this year will take place on January 18, 2010 at Hackett Middle School at 10:00 a.m.

Dr. Maxine Fantroy Ford and Rosalind Gaines Harrell will provide information to the board regarding the Harlem Children's Zone. The district has developed a pilot program for 5<sup>th</sup> and 6<sup>th</sup> grade students. This is the result of successful collaboration between the district and the community.

The district is currently working on a number of grants. Dr. McCalla talked about the Smart Scholars Grant. Students in the Academy of Engineering will be able to take up to 30 credits at HVCC. Over the period of the next three-four years the district estimates that approximately 200 students will take advantage of this opportunity.

The High School Magnet School Grant committee continues to encourage community members to participate in the development meetings. The group meets every Tuesday. This week the meeting will take place at the College of St. Rose. A presentation is expected to be made to the board later this month. Ms. Pastecki noted this grant application addresses Strategy #3 of the District's Strategic Plan, to close the achievement gap by creating smaller learning communities at the high school.

Race To The Top (RTTT) is a grant application that the New York State Education Department is applying to the federal government for. This was President Obama's nationwide educational plan to address educational reform. It is a \$700 million grant opportunity that focuses on four different areas, adopting standards in assessments to get kids ready for college and the workplace, building data systems, recruiting, developing, rewarding effective teachers and principals, especially where they are most needed. It is also about turning around the lowest performing schools. All school districts in New York State are being asked to sign off on this grant application. If this awarded it will take place in April with a 90 day turn around. The district will be working with the teacher's association. The district is positioned well for a sizable grant award. The district's work in "A Vision for Tomorrow" is very helpful to the district in this endeavor. In order to be eligible the State must remove the cap from charter schools. Charter schools have also been invited to apply for this grant.

Dr. Colucciello spoke about the challenges of Charter Schools in the City of Albany related to the approval and renewal of applications and the over abundance of seats in Albany schools, including charter schools. A full presentation will be made later on this agenda.

1. Bert Malerba addressed the board regarding the district Pre-K Program and the inequity related to transportation to magnet schools and not others. The district needs to reallocate resources to provide transportation for all Pre-K programs for equality, to provide Pre-K to those most in need and most at risk.

Additional enrichment is also planned. Parents will also be involved in the program. It has been noted that with parental involvement other members of the family also become involved. Information will be provided to parents and students with the selections to take place later this month. There is also a parent component, serving the reading behaviors of parents, along with the students. Parents will also receive a certificate, along with their child. The program will encourage the use of libraries for reading materials. Expectations are that students will be prepared for middle school, high school and college. This program is separate from a tutoring program or a homework program.

- Who is involved in developing the curriculum?

Meetings have taken place with the literacy coaches and the teachers who will be teaching the program. The program will be in line with the Harcourt Reading Program.

- Hopefully, there will be sufficient flexibility in the variety of reading materials to engage
- Is the Family Education Alliance a foundation?

Mr. Egan complimented the members of the FEA and staff members in putting this program together. Also, the pre and post testing related to evaluating the program is a great model.

**Charter School Update**

Members of the Charter School Committee, formed in October, presented an update on Charter Schools. Ms. Doesschate reviewed a consensus on goals developed by the committee, along with the membership of the committee. The group agreed the district needs to compete with charter schools; develop key messages; collect data to support messages; outreach to charters; comment on pending applications; discussion of the need for legislative relief; outreach for Albany specific relief. The group discussed the next steps, focusing on the understanding that there is a need to work together with charter schools to ensure that every student in Albany is attending a quality school. Legislative relief would be very helpful to the district in a way of having a limitation so that there is not a continuing approval of charter schools which creates an unpredictable and unsustainable situation.

The committee will continue to meet and discuss strategies. This is a prime opportunity for the district to make its case that there needs to be relief specific to Albany. Ms. Doesschate provided information for board consideration, including a draft board statement on the proposal to lift the cap in New York State in charter schools for review by the board. Discussion followed relative to approval of the statement and the procedure to be followed in terms of the agenda based on the timing of this issue. Discussion also included concerns relative to accountability of charter schools. Concern was also expressed regarding district resources and how they are prioritized in terms of providing information and data for students in the district and those in charter schools. Discussion also included the lack of community representation during a meeting held regarding the schools. Concerns were expressed regarding #3 in the statement, focusing more on the accountability issue.

Following discussion, Ms. Doesschate made a motion to move this item from information to action. Dr Barth seconded the motion.

The board voted 6 ayes and 1 nay (Mr. Morris) to approve the motion.

Motion passed.

Following a lengthy discussion it was agreed that the statement include the first two paragraphs and items 1 and 2 of the statement.

**Statement of the  
City School District of Albany Board of Education  
on the  
Proposal to Lift New York State's Cap on Charter Schools  
January 4, 2010**

The City School District of Albany Board of Education ("the Board") recognizes that the State of New York may lift the cap on charter schools in New York State in order to be able to compete effectively for federal Race To The Top funds. The Board also recognizes that some districts in New York State may want to increase the number of charter schools in their district. The Board is not opposed to lifting the cap to realize the benefits across New York State of the improved chance to compete for Race To The Top funds.

At the same time, the Board agrees with the issues outlined in the New York State School Boards Association's (NYSSBA) December 21, 2009 letter to Commissioner Steiner and Chancellor Tisch and wholeheartedly endorses the positions taken by NYSSBA in that letter. However, the Board also implores the New York State Legislature and Governor Paterson to recognize the devastating impact the oversaturation of charters is having on the City School

District of Albany, its students and its taxpayers, and asks the Legislature and the Governor to ensure that any legislation lifting the cap on charter schools in New York State provides specific and immediate relief for Albany's unique charter school situation.

Specifically, the Board asks that any such legislation:

1. Impose a specific limit on the enrollment of students in Albany's charter schools unless such schools have been endorsed by the Board to ensure that charter-school approvals in Albany are at a predictable and sustainable level. The limit should recognize that the charter schools currently approved to operate in Albany have been unable to meet their approved enrollment targets and that this excess capacity is adversely affecting the district's ability to plan efficiently and effectively in the best interests of our students, and substantially increases the local taxpayer burden; and
2. Provide specific and substantial fiscal relief to appropriately compensate the district and Albany taxpayers for the costs associated with the oversaturation of charter schools in the City of Albany.

Ms. Doesschate made a motion to approve the revised statement. Ms. Gaffuri seconded the motion.

The board voted 6 ayes – 0 nays and 1 abstention (Mr. Morris)  
Motion passed.

Ms. Doesschate made a motion to approve the Resolution to Approve Appraisal Services for the PLMA building. Dr. Barth seconded the motion. ### **DISCUSSION ITEM**

#### **Policy Review**

Ms. Jackson-Chalmers reviewed the eight policies presented for discussion. These policies were reviewed by the Policy Committee on 12-08-09. Changes were made where they deemed necessary.

**1000 Community Relation Goals** - Replaces #0020 adopted 10-03-06 - addition of #4 – Strive to develop other effective communications to ensure input from all district stakeholders about matters affecting the well-being of students.

**1050 Annual District Budget Vote** – Adopted 07-05-06 - no changes.

**1050.1 Voting Procedures** – New - this comes directly from Education Law.

**1130 News Media Relations** – Adopted 02-07-07 – language changes that clarify the role of the board president as a spokesperson for the board and the superintendent who is the spokesperson for the district.

**1230 Public Participation at Board Meetings** – Adopted 2/07/07 - clarifying language was included which does not change the policy. Mr. Egan noted the policy states that we call upon speakers who are addressing agenda items first. If there is a significant number of people signed up to speak the board president follows this format.

**1400 Public Complaints** – New –Minor changes, last paragraph, “All matters specifically referred to the superintendent and/or the board shall be in writing, or recorded by staff.”

**1420 Complaints About Instructional Materials** – New - original title was Complaints About Curricula and Instructional Materials. Because there was no reference in the policy to Curricula, that word was deleted from the title.

Policies will be presented for approval at the next meeting.

**Board Committee Reports**

Ms. Mackey advised the Gun Violence Task Force Implementation Team will meet on Tuesday, January 12, 2010. The Alt Ed Think Tank Meeting will be on Monday, January 11<sup>th</sup> from 5:00 – 6:30 p.m. Audit Committee meets January 12<sup>th</sup>.

**Board Member Items**

Meeting with judges met in December and will meet again in February. They will work with the district to develop a parent center at Albany High School. Mrs. Gaffuri suggested the board consider parent centers for each school. With approval of board members this will be a future agenda item. Mrs. Gaffuri asked that she be allowed to continue with this endeavor. Ms. Mackey noted the Gun Violence Task is working around issues of truancy. This might be a place to interface between the Gun Violence Task Force and the Family Court Judges.

Ms. Mackey asked that the district's attendance zone be brought forward as a future agenda item for board consideration and approval as the district moves forward the Pre-K enrollment. With four board members in agreement, this item will be brought forward.

Ms. Mackey noted her concerns about information on the Pre-K lottery process and the communication to the community. What are the ramifications of pushing back the pre-k lottery? Is there consideration of having a Pre-K Center? This would alleviate issues of school choice, sibling preference and neighborhood choice. With approval of four board members this item will go forward as an agenda item.

What is the status of the volunteer coordinator position? Screening is now taking place. The position is expected to be filled by February 1<sup>st</sup>.

**Adjournment**
