CITY SCHOOL DISTRICT OF ALBANY BUREAU OF HEALTH AND PHYSICAL EDUCATION

SELF-ADMINISTERED MEDICATION PERMISSION FORM

Self-Administered Medications

Under certain conditions it may be necessary to allow a student to self-administer and carry his/her own medication. This practice is discouraged as lost or improperly administered medication is a risk to all students. The criteria for permitting a student to carry and self-administer medication are as follows:

- The prescriber must direct in writing that the student, DUE TO HIS/HER MEDICAL CONDITION, be allowed to carry his/her medication and self-administer.
- The parent/guardian must request in writing compliance with prescriber's order.
- The student must be instructed in the procedure of self-administration by the prescribing physician and the school nurse.
- The student must be capable of responsibly carrying properly labeled medication in an original container on his or her person or keeping it secured in a school locker.
- The parent must assume the responsibility for monitoring the child on a daily basis to insure that the child is carrying and administering the medication as ordered.
